Declares Monroe Doctrine Covers West Indies and Brazil.

Kaiser's Efforts to Get a Bigger Navy Directed Against Our Policy-We Need More Ships and We Need Them Quickly.

WASHINGTON, May 11.-Mr. Lodge (Mass.), of the Foreign Relations Comspeaking in the Senate to-day, declared the absolute necessity for a bigger navy, and that at once, making direct reference to Germany.

could never allow the Danish West India Islands to pass into any other hand than ours. Any European nation which should undertake to take essession of these islands right on the oad to the canal and to make of them great naval stations would by that

"We could submit to no such thing as that. The Monroe Doctrine is a great protection to the United States. Men of all parties Republicans and Populists without distinction, adhere to that.

"I am by no means sure that some European nation (perhaps one whose navy is now receiving such rapid increase) may not test the Monroe Doc-

"We may be called upon to protect that doctrine in Brazil or in some other South American country. I am not conjuring up fancies, but I believe the way to preserve peace is to have such navy as no power in the world would care to encounter."

In a colloquy with Mr. Lodge Mr. Tillman said it was well known that the Navy of the United States was superfor to that of Germany.

Mr. Lodge, agreeing in part with Mr. Tillman's statement, pointed to the great increase that now was being made in the German navy.

"If the Senator thinks." said Mr. Lodge, "there is no danger to be apprehended. I fear he underrates the imconsideration.

The statement by Mr. Lodge was called forth by the amendment of Mr. Tillman to the Naval Appropriation bill providing for a straight price of \$300 per ton armor and an armor-plate factory to be built by the Government at an expense not to exceed \$4,000,000. Mr. Lodge opposed this, declaring the net result would be to stop the building of war-

My reason for desiring more ships, said he, "and desiring them quickly, is my belief that the safety of the United our navy. We do not need the navy

for the protection of our insular posline and in the defense of the Monroe doctrine in this hemisphere. Our At-lantic coast is studied with cities from

the guif to northern Maine.
"For the defense of this great coast
line and those cities we have no ade-quate fieet. We are about to exter upon the construction of an isthmian canal. Whether it will be better to ferrify that canal or not is, yet an open question. But to control that canal, to defend it, to hold it open for our commerce and for the commerce of the world, even though it be against n enemy's fleet, we must be the naval
